1 The gTLD and ccTLD data cited are estimates as of the time of such report and subject to change as more complete data is received.
 2 Total includes additional tracking of ccTLD Internationalized Domain Names.
 3 The number of ccTLD extensions cited in this report is published by IANA.

Sources: For gTLD and ccTLD data with Zooknic as a source, the Zooknic analysis uses a comparison of domain name root zone file changes supplemented with Whois data on a statistical sample of domain names which lists the registrar responsible for a particular domain name and the location of the registrant. The data has a margin of error based on the sample size and market size. The ccTLD data is based on analysis of root zone files. For more information, see ZookNIC.com. Information on or accessible through this website is not part of this blog post.

TEN LARGEST ccTLDs

Combined, these account for 64.3% of all ccTLD domain name registrations worldwide.³
